

*Bring your Exhibits Alive™
with HiDef videos of colorful birds and butterflies
with panoramas of waterfalls and spring flowers in bloom ...
or replays of local teams' exciting sports highlights!*

It's easy to embed sharp, colorful HiDef videos into your exhibits with our FlashVideo HDL HiDef digital video player/monitors. The slim LED-backlit LCD monitors provide brighter/sharper images and ultra-wide viewing angles. The hidden, integrated media player plays full 1080p content on the SD card for unattended, continuous viewing.

FlashVideo HDL is available in various sizes from 10" to 32" in a slim, open frame chassis perfect for custom exhibit installations.

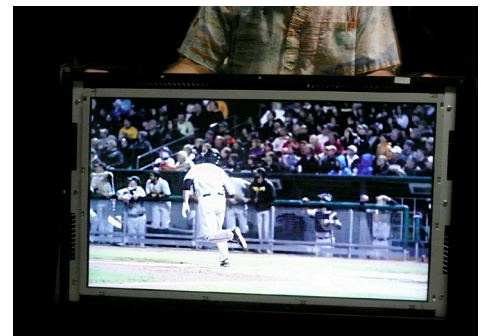

Using convenient Secure Digital (SD) memory cards for storing video segments, Signal-Innova's FlashVideo HDL makes it easy to update, interchange and replace your beautiful HiDef videos.

FlashVideo HDL-15.6 with bezel & stand

FlashVideo HDL-10

FlashVideo HDL-32

- Widescreen Open Frame LCDs:
10" / 13" / 15.6" / 19.5" / 22" / 32"
- Ultra-wide viewing angles
- Plays full 1080p content
- Optional bezel
- Optional stands & mounts

Player's security door prevents unauthorized access to the controls and SD card. The doors are secured with either with a keylock or screws.

FEATURES

HIDEF IN A SINGLE SLIM UNIT

FlashVideo HDL's maximum supported resolution is the widescreen (16:9) 1080p – full HiDef 1920x1080 output. You can now easily embed a single, integrated HiDef player/monitor into exhibits and kiosks. No more cable confusion!

With LED backlighting, the LCD monitor, video player and speakers are self-contained in a single, slim compact open frame unit designed for public space installations.

FULL HIDEF VIDEO

FlashVideo HDL's media player supports full HiDef 1080p content (DivX / H.264 HiP @ level 4.1). JPEG photo files are also supported for slide shows.

UNATTENDED LOOPING PLAYBACK

FlashVideo HDL features auto start and looping playback of one or more HiDef videos and/or photos. Once the player has been plugged in, the media begins playing.

NO MOVING PARTS = RELIABILITY

FlashVideo HDL includes a Solid State media player with no moving parts. Use of Secure Digital (SD) memory cards for video storage eliminates mechanical problems associated with videotapes, laser disks and DVD players.

OPEN FRAME MOUNTING OPTIONS

With open frame mounting, FlashVideo HDL units are intended to be built into exhibits. Adequate ventilation is required.

EASE OF UPDATING CONTENT

A memory card reader/writer and a PC are the only equipment needed to load new video files.

A USB port for updating the SD card is also provided on the player. A unique security file on the USB drive prevents unauthorized access.

AUDIO

FlashVideo HDL is equipped with two 1W speakers and volume control.

SECURITY

A security door protects the controls and SD card. Doors are secured by screws or keylock.

READY-TO-GO PLAYBACK

Signal-Innova's FlashVideo HDL packages includes an SD card, loading of your HiDef video file and playback testing before your order is shipped. If you prefer, the SD card will be loaded with demo files which you can use for setup and testing.

OPTIONAL:

- Bezels may be available, depending on monitor size
- Monitor mounts (fixed and tilting) and countertop stand may be available
- Larger capacity SD and SDHC cards
- Video file sourcing service
- Video conversion, editing and file encoding services
- Coming soon: HiDef video player/monitor with touchscreen and pushbutton input
