

What's thunder without lightning?

Our Lightning Strobe can be synchronized with your thundering audio tracks to add dramatic lightning effects!

Using our digital audio repeaters and controllers, Signal-Innova programs the strobe to perform on cue!

- Fixed & variable lightning, arc welding & other effects
- Up to 1800 watts per flash; color temperature 5600° K
- High power quartz xenon lamp with optically coated reflector
 - Flash range: 15 seconds/minute to 15 flashes/second
- Cool-line extruded aluminum housing with clear Lexan dome
 - Other dome colors: Red, amber and blue
- Self-resetting safety switch (55° C). 120 volt
- Made in the U.S.; Underwriters Laboratory approved
