

Bring your Exhibits Alive™

with old newsreels recalling people long gone...

and things long forgotten....

*Let visitors discover how to economize and green their homes,
recycle and protect threatened species....*

*Adept with remote controls and touchpads, today's visitors
are ready to take control over the videos they view....*

Signal-Innova's FlashVideo DV, our smallest and most economical interactive video player, makes it easy to offer viewers many video choices. A looping video launching on startup attracts visitors, who can be offered up to 8 videos triggered by pushbuttons.

Using convenient CompactFlash™ (CF) memory cards for storing video segments, Signal-Innova's FlashVideo DV makes it easy to update and replace videos.

*The Quagga stallion of Louis XVI at Versailles.
A relative of the zebra, it has been extinct for 125 years.
A Quagga rebreeding project is underway in South Africa.*

FEATURES

COMPACT SIZE - FITS IN SMALL SPACES

The small size (6.5" x 4.25" x 1.5") of FlashVideo DV allows for installation in tight spaces such as kiosks or in small exhibit housings.

UNATTENDED LOOPING PLAYBACK

FlashVideo DV features auto start and looping playback of one or more videos and/or photos.

NO MOVING PARTS = RELIABILITY

Use of Compact Flash™ cards (up to 4GB) for video storage eliminates mechanical problems associated with videotapes, laser disks and DVD players.

EASE OF UPDATING CONTENT

A CF card reader/writer or USB Mini-B cable and a PC are the only equipment needed to load new video files.

STANDARD FORMATS

FlashVideo DV plays MPEG-1 (Video CD), MPEG-2 (DVD), and MPEG-4 (DivX) video file formats for professional quality output. JPEG photo files are also supported.

STANDARD FORMATS (OUTPUTS)

FlashVideo DV outputs NTSC or PAL Composite Video, S-Video and Analog VGA (640 x 480). With FlashVideo DV+ (optional), VGA output of 1280 x 720 is also supported.

Audio output is stereo.

READY-TO-GO PLAYBACK

Signal-Innova's FlashVideo DV basic package includes a CF card, loading of your looping video file and playback testing before your order is shipped. If you prefer to load your own files, the CF card will be loaded with demo files.

PUSHBUTTON INTERACTIVITY (OPTIONAL)

If configured for pushbutton interactivity, FlashVideo DV invites visitors to select which video to watch. The looping attract video can be interrupted when any of up to 8 pushbuttons is pressed.

When ordered with the Pushbutton Interactivity option, FlashVideo DV is shipped with Signal-Innova's custom button connectors, pushbuttons and a CF card with the pushbutton setup.

FLASHVIDEO DV BASE PACKAGE

- 1 FlashVideo DV unit (6.5" x 4.25" x 1.5")
- 1 AC Adapter (Input: 100-240v 50/60 Hz Output: 12v, 4.16A) (5')

- Wall mounts (fixed and tilting) for monitor
- Kiosk amplifier for line level output to external speakers
- Authoring software available for special applications
- Video conversion, editing and file preparation services
- Video file sourcing service
- Custom expanded system design and configuration

ABOUT COMPACT FLASH™ CARDS:

FlashVideo DV functions better with some brands and speeds of CF cards than others. CF cards supplied by Signal-Innova have been tested for compatibility. If you use your own CF card and encounter problems, please use the card supplied with FlashVideo DV to test player functioning.

CompactFlash™ is a U.S. registered trademark of SanDisk Corporation.

SUGGESTED APPLICATIONS

- Interactive exhibits
- Museum, zoo & aquarium exhibits
- Dramatize historical displays
- Nature & animal videos to enliven, educate and entertain
- Trade show & convention sales exhibits
- Corporate lobby exhibits
- Fund-raising displays
- Your unique application
